

# Postdoc Position in Stellar Astrophysics

The Institute for Astro- and Particle Physics at the University of Innsbruck invites applications for a postdoc position. The candidate is expected to become actively involved in the Galactic Astrophysics group. Participation in teaching and in organizational and administrative matters is expected.

The appointment may start as early as June 3rd, 2017 and will be for four years.

Applicants should have a PhD in astronomy or physics with focus in astronomy/astrophysics. Expertise is required in the following areas:

- observation with modern facilities, in particular spectroscopy,
- quantitative spectral analysis and model development in stellar atmospheres with a focus on luminous massive stars,
- practical experience with technical aspects of telescope handling and astronomical instrumentation

A detailed description of the position profile can be found here:

<http://www.uibk.ac.at/universitaet/profile-wiss-personal/post-doc.html>

Details of the application procedure are provided on the career opportunities webpage of the University of Innsbruck (position [MIP-9332](#)):
