

Coordinator of Masterprogramme
at the
University of Tübingen

The Institute of Astronomy and Astrophysics at the University of Tübingen invites application for the position of

**Coordinator
Masterprogramme Astro and Particle Physics**

The University of Tübingen has established a new International Master of Science Programme in the field of **Astro and Particle Physics** starting in the winter term 2017/18. The Master Programme is an activity of the *Kepler Center of Astro and Particle Physics* within the Physics Department of the Faculty of Science. For more information on this Master Programme see corresponding Webpage.

To organize the new Master Programme, which is taught fully in English, we are looking for a Coordinator whose duties include: advertising the programme, communication with the applicants, quality control, organising the web-page, and teaching additional courses not included presently in the Kepler Center. Applicants should have a PhD in physics/astrophysics, a strong scientific background in research fields relevant to those of the *Kepler Center*, and are expected to pursue own original research.

The appointment starts 1. October 2017, is initially for 5 years, and is paid according to the German public service scale (E13). Applicants should send a curriculum vitae and bibliography electronically to wilhelm.kley@uni-tuebingen.de. Please ensure that three letters of recommendation are sent directly to the above e-mail address.

The University of Tübingen seeks to increase the fraction of female scientists in research and teaching and particularly encourages applications from women. Disabled candidates are given preference if equally qualified.

The **Deadline** for receiving the applications is 30. June, 2017.

Prof. Dr. Wilhelm Kley
Institut für Astronomie & Astrophysik
Universität Tübingen
Auf der Morgenstelle 10
72076 Tübingen
email: wilhelm.kley@uni-tuebingen.de.

All applications will receive full consideration until the position is filled.

Further information is available on the webpage of the *Kepler Center of Astro and Particle Physics*
